

- CoolTechGirls is a joint initiative between City of Dublin, Dublin Entrepreneurial Center (DEC) and Cybervation.
- Our vision is to provide a supportive and collaborative environment to school age girls to ignite their passion in science and technology.

Join Us

CoolTechGirls April Event

You are invited to the CoolTechGirls April Event. Join us as we explore 3D Printing, the Metro Data Center, and learn about more career opportunities in STEM!

Topics include:

Introduction to 3D Printing

We are joining forces with IC3D to bring you a class that will give you the opportunity to see a demo of how a 3D printer works. You will be able to see an image on the computer become an actual object you can touch and hold within minutes!

Data Center Tour

Girls will have the opportunity to tour Dublin's Metro Data Center. The 6,000 square foot facility is home to data from all over the world! Learn how the mega computers store the data and how it is ensured that everything keeps running so the data isn't lost!

Learn More About Career Opportunities in STEM

As always, we will have women role models at our event to provide girls with personal insight into the STEM fields. Learn about careers, the importance of STEM, and how to get more involved with STEM related activities.

When: Saturday, April 19, 3:00 - 5:00 pm

**Where: Dublin Entrepreneurial Center (DEC)
First Floor Training Room, Suite 180
565 Metro Place South, Dublin, Ohio 43017**

There is no charge for this event but seats are limited.

Please RSVP to info@cooltechgirls.org with "April Event RSVP" in the subject line. RSVP is required.

For more information: info@cooltechgirls.org | 614-410-4949 | www.cooltechgirls.org

Did you know?

- 48% of women are in the US workforce*
- 24% of women are STEM (Science, Technology, Engineering and Math) workers*
- U.S. Bureau of Labor Statistics projects nearly 1.4 million computer-related jobs to be added by 2018 (since 2008)
- One third of computing jobs will be vacant

*Census Bureau's 2009 American Community Survey (ACS)

*The best part? This is a Girls Only club.
You have a chance to test
your imagination,
while working in a team.*

We look forward to seeing you on April 19! Please forward this invite to other girls in high school and middle school that love science and technology and may have an interest in being a part of this group.
